What are cookies?

Cookies are files placed on your computer to collect standard Internet log information and visitor behaviour information. When you visit our Websites and Portals, we may collect information from you automatically through cookies or similar technology.

For further information, visit allaboutcookies.org

What types of cookies does Hydrolix use?

Hydrolix uses a number of different types of cookies:

Strictly necessary cookies — These cookies are essential for you to browse the website and use its features, such as accessing secure areas of the site. These cookies are established at the start of your interaction with us for that session. They enable you to move around the website, use our services and use its features. Without these cookies, our services can not be operated and functionality will either not work at all or be severely limited.

Persistent Cookies - These cookies are stored on your machine and are used to do things like remember choices you may make in interacting with our services, and may contain information such as your user name, language or the region you are in. They also may provide enhanced and personalized features, so that when you return on another day, certain settings may be remembered.

Third Party Cookies - Hydrolix in order to deliver services may need to use Third Party cookies to enable services. These cookies are focused on the functionality of the site and service and are not used for ad serving purposes.

How to manage your cookies

You can set your browser to not accept cookies and the above website in "What are Cookies" tells you how to remove cookies from your browser. However, in a few cases some of the features and functionality of our website and portals may not function as a result if cookies are removed, blocked or not allowed to function.
